What attracted you to the company?

I was talking with an employee and he had nothing but good things to say about Valmont. “They paid for my new house.” “They care about everyone who works there,” etc. I went to the job fair and never looked back.

What are the best/most interesting things about your job?

I love the freedom that comes with welding. It is great to know a skill and be able to say “I did that” when something turns out great.

Do you make a good living?

Yes; even with inflation and the cost of living rapidly rising, I am still able to live comfortably.

What do you think makes you a good Dream Team candidate?

Well, I am surprised that I was considered for the Dream Team since I work with so many talented people. But I think my excitement and passion for my job carry over to everything I do at Valmont.
